Summary

Senior Software Developer with 5+ years of experience delivering responsive web and mobile apps using **Angular, React, Node.js,** and **MongoDB**.

Skills

- **Languages:** JavaScript, TypeScript, HTML, CSS, Python
- **Frameworks & Libraries:** Angular, ReactJS, Node.js, Express, Ionic, Capacitor, Svelte
- **Databases:** MongoDB
- **Other:** Responsive Design, Agile Development, Cross-Platform Development

Experience

- **i2e Consulting**   *6 September 2022 – 30 September 2025*
  Sr. Software Developer

  - Developed Transcend mobile(4.7★ on Google Play), desktop and web applications to provide access to eBooks and audiobooks, using **Angular, Capacitor, Electron and Ionic**.
  - Collaborated with designers and backend developers to ensure seamless integration and consistent user experiences.
  - Implemented optimized reusable UI components and improved app performance across devices.

- **Bitkraft Technologies LLP**   *18 April 2021 – 30 August 2022*
  Software Engineer

  - Built NIC Smart Hub, a unified platform for suppliers, retailers, and employees, providing self-service tools for transactions, requests, approvals, and real-time status tracking, using **Angular, Capacitor and Ionic** for web and mobile platforms.
  - Develop the admin portal for a code learning platform using **React, Node.js, and MongoDB**, enabling seamless frontend and backend integration.
  - Maintained an internal employee management portal using **Angular and Material UI**, improving administrative efficiency.

- **Grip Technologies PVT. LTD.**   *13 January 2020 – 17 March 2021*
  Ionic Mobile App Developer

  - Created mobile apps using **Angular and Ionic** for FitnessForce clients in the fitness industry.

○ Developed a Member App for class bookings and membership management, and a Staff App for attendance and class confirmations.

Educational Qualifications

- **M.Sc. in Information Technology**, Distance Learning, Mumbai University — *Ongoing (Expected 2026)*
- **B.Sc. in Information Technology**, Valia College, Mumbai University — *2019* — CGPI: 7.98
- **H.S.C.**, Bhavans College, Mumbai — *2016* — Percentage: 71.23%
- **S.S.C.**, S.C.D. Barfiwala High School, Mumbai — *2014* — Percentage: 89.20%

Projects

- **React Movies**

  A **React web app** that displays **upcoming and currently playing movies** in theatres worldwide. Integrated The Movie DB API to fetch movie data and details, with a focus on clean UI and smooth user interaction.

- **Recipe Book**

  An easy-to-use web app that helps users **manage their recipes** efficiently. Users can add new recipes, view their collection, create ingredient lists, and add recipes directly to their shopping list. It features secure authentication for protected access and is built using **MongoDB, Express, Angular, Node.js (MEAN)**.

- **Task Clip**

  A web app for **managing tasks**, featuring **secure authentication** to keep user data safe. It allows users to **create, organize, and track tasks** effortlessly. Developed with **Svelte** on the frontend—providing an opportunity to explore and learn the framework—while **Node.js, Express** and **MongoDB** power the backend.
